

Sample Course Plan

Due: April 23rd at 6pm

Purpose

The purpose of this assignment is to give you the experience of creating a sequence of informal class assignments that culminate in a final formal writing assignment for a secondary classroom.

Assignment:

For this assignment, you will create a plan for a week's worth of lessons for the secondary classroom on a specific element of writing.

You will begin the week by introducing a formal writing assignment (with an assignment sheet) that will be due the following Friday. This **assignment sheet**, which you will attach to the week of lesson plans, must include:

- the due date
- detailed explanation of the purpose of the assignment
- detailed explanation of the assignment
- a rubric
- any formatting requirements you may have.

You will then create a **5-day lesson plan**, using the template on Moodle, paying attention to the questions required for each section. These lessons should include

- how you will introduce the formal assignment
- how you will use informal and exploratory assignments throughout the week to scaffold the final assignment
- a reflection lesson for the day the formal assignment is due.

Pay particular attention to the readings in *Engaging Ideas* to promote critical thinking when creating these assignments and lessons.
